

James 4:13-17 - Faithful Planning

1. The point: There is a very fine line between faithful planning and foolish presumption.
2. The problem: The “self-made man” will always boast of his maker’s accomplishments.
3. The complication: Our modern age has enabled most of us to plan and pursue great things.
4. The question: Who knows what will happen tomorrow? What is our life? Come now!
5. The solution: Learning to think, believe, and say, “God willing” as we make and execute our plans.
6. The enforcement: To disconnect what we KNOW from what we DO is evil.
